### **Saturday July 26<sup>th</sup>**

- 7:00 Up, breakfast and pack
- 8:00 Leave camp
- 12:00 Arrive at Snoqualmie, 8 ¾ miles

The Pacific Crest Trail (PCT) is a 2,600 mile long National Scenic Trail that goes from the Mexican border to the Canadian Border. This section goes through sub alpine parkland with lakes, forests and meadows. We start 12 miles from Mt. Rainier and go through two designated wilderness areas as we traverse beautiful crest-top vistas.

This trip promises to be the most amazing wilderness trip you could ever go on. Who is eligible? Anyone with a desire to learn and grow. We have had 10 year olds who could do this; it is also a chance of a lifetime for many adults. I saw a 65 year old man hiking the entire 2,600 miles of the PCT. It is never too late to start, although it is easier for kids who this may be the easiest time in their life to get away.

You won't need any special equipment for this hike. See the equipment list on our website. This is not a technical or dangerous hike; in fact it is fairly moderate in topography. That doesn't mean it's not challenging, as we will have two challenging days 3 and 4 days into the trip.
